

Area 59 Structure Subcommittee Report
EPGSA Convention
November 14th -16th, 2014

Over the last year it has been an honor and a privilege to serve as Area 59 Structure Subcommittee Chairperson. I could not have done this without the help and tireless devotion of the structure committee.

This past year we continued to update the Structure Manual on the area website for accuracy, distributed over 1000 structure manuals, visited and helped several districts to develop, and amend structure manuals. We presented displays at various workshops, district and area events, and conventions. We gathered from the Districts of Area 59 several Structure Manuals for use as a resource library for those Districts working on or updating their own Structure Manual.

We updated, collected and organized the service history of Panel 63, to produce the 2015 Area 59 Structure Manual that will be available at the 2014 EPGSA Convention.

In Fellowship and Service,

Jim S – Chairperson
Steve B – Secretary
