Querido Comité de la Área 59,

I trust these few words will find you happy, joyous and free to enjoy this day. We the Structure Committee just met for the last hour and are adjusting to change and forming and norming as we endeavor to serve you.

Since our inception in December we have met four times during which time we reviewed and prioritized the Delegates recommendations, divided up the Area map and identified individual service section, we searched for and thanks to our Advisor have located an electronic version of the English Area 59 Service Manual. We have started our review of the Service Manuals and have already found some small error in the English and many errors in the Spanish. In addition content discrepancies between the two versions were found. Stay tune for details as the Panel progresses.

We are currently creating presentation boards/displays, brain storming about how to put District 68 on the Area map (any suggestion will be appreciated), trying to gain access to an electronic copy of the latest Spanish Area 59 Service Manual and endeavoring to gain a better understanding and insight of our AA Service Manual, the Area Structure Manual, our Traditions and our Concepts.

We encourage every DCM to motivate their District to develop and or update their own Structural document. By doing do you will be facilitating the future work and existence of the life saving entity you serve.

I want to thank the members of the Structure Committee for making and taking our display to Area events; Kenny R. went to the Lancaster Share A Day and Doris A. represented us at the District 53 Historical Workshop and has been busy updating the District business Meeting List on line. Please keep her informed of any changes. We also extend a shout out to Brian K. for his outstanding service as our Secretary. We wish Brian the best as he moves to serve as Chair of the PI Committee and we welcome David H., our newest addition, to the Structure Committee.

We are sad to announce the resignation of Mark H. and welcome his ADCM Ira to the Structure Committee.

Lastly we are looking forward to partnering with 3 or 4 other Sub-Committees to plan a Workshop in the fall.

In love and service, Feliz 24

Evelyn D.
Structure Committee Chair
