CPC Subcommittee Report – Q2 2020

- Joined a CPC North America Group to participate in online forums and workshops. This is a collaborative tool for CPC for North America and is open to all A.A. members interested in CPC service work <https://groups.google.com/forum/#forum/cpcnorthamerica>
- Supporting a recommendation being submitted by the Treatments and Accessibilities (T/F) sub-committee for the appointment of a special servant to coordinate Bridging the Gap activities for Area 59, EPGSA.
- We fielded 3 requests from GSO and passed onto both SEPIA CPC Subcommittee and Prison Committees --
 1. Student who wanted to attend AA meetings.
 2. Veterinarian, who is a member of AA, looking for online meetings for health care professionals.
 3. D&A Treatment Program - Philadelphia Department of Prisons
- Before restrictions, our committee continued to pass on information from A.A. to several professionals in our local communities. We prepared a literature package for GSRs, alternates and AA members to help in our primary purpose of helping the sick and alcoholics who suffer, taking the time to deliver the material to any professional they meet.
- CPC Chairperson and Advisor attended a PI / CPC Triangle Fellowship online Meeting in Oakland, California. We thought it was a workshop but no -- we did receive information on Google Business Listings for Groups, IGCO's and passed onto both Area 59 and SEPIA.
- We continue to consider the recommendations of the delegates provided as a guide for the activities of our committee throughout this Panel.
- During the Panel, our committee continues to meet online.
