- The Technology Subcommittee meets online every 4th Wednesday of each month.
- The subcommittee has been receiving updates on the progress of the new web site from our web servants and technology committee provided follow-up for changes needed.
- Based on prior survey responses, sent E-mail account migration instructions to all Area 59 e-mail recipients. Migration is important to reduce future costs, and currently any new e-mail accounts are being setup through Google Workspace.
- We received confirmation from vendor that the remaining audio equipment ordered last year will arrive soon.
