

Structure Subcommittee Panel 67 Quarterly Report

1st Quarter 2018

Structure Members

Brandon N. District 52, Secretary

Pete B. District 44

Glenn W. District 62

Frank B. District 57

Larry L. District 28

Carrie S. District 43, Chair

Summary of Subcommittee Activities:

- Organized and executed DCM Sharing Day morning session (January 21, Bethlehem).
- Provided Structure display and literature at 2 workshops (Frank and Pete, thanks!).
- Began research into the formation of a Tech Committee, at the direction of the Panel after a PI recommendation:
 - Paul, Delegate, sent a GSC-wide survey to solicit feedback on how other Areas handle technology procedures and assets.
 - Had a Structure Subcommittee conference call on 2/5/18 to discuss the survey feedback.
 - Feedback falls into one of three categories: 1) Our Area doesn't have one, 2) Our Area sees the need for one and are beginning to think about it, or 3) Our Area has one and here's how it's structured. Of the 14 responses in the third category, there are few consistencies. Each area clearly defines what best serves their specific needs. There are no clear-cut standards or solutions.
 - Therefore, the Structure Subcommittee needs to better understand the needs of our Area 59. We will interview current and past stake holders to gain insight into what the problems are that need to be addressed and what a Tech Committee hopes to achieve.

In Grateful Service,

Carrie S.

Structure Subcommittee Chairperson Panel 67
