## CPC Subcommittee Report Q3 2019

### Summary of Subcommittee Activities:

- CPC was invited by District 37 to deliver a brief presentation on CPC activities and how that district might engage in such activities as well. It was a successful event. It is important to remember that an important reason for the Area CPC subcommittee is to assist districts in this fashion. If you district has a CPC committee or has interest in forming one please let us know, and we can work to make arrangements for a presentation or simply more information.
- We continue to monitor the program of placing A.A. literature in hospitals. The interest is clearly there where already placed. It is not entirely certain the significance of the literature is being stressed by those that might influence those might benefit. It is attraction rather than promotion after all so perhaps moderating expectations is in order.
  - One additional remark about hospital contacts. We are only attempting to do this within the subcommittee member districts as the actual distribution is handled at that level. As with the previous bullet point if a district has interest in making the attempt get in contact and we can give you a basic outline of how to make the approach.
- We fielded three requests this quarter from the CPC desk at GSO. Two of these are within the SEPIA umbrella and those were passed along accordingly. Further discussions with the CPC director at SEPIA led us to suggest that if the contact information is for Philadelphia that it be forwarded directly to SEPIA. It is not clear how this will work in practice so we will continue to field any requests and steer them to the appropriate entity.
  - The third request was for contact and literature. Unfortunately, the only contact info was a name and address. We are still working on that.
- We are continuing to review delegate recommendations as a guide of committee activities

CPC displays were provided for the following events:
