**Officer-At-Large/Registrar Report  
E.P.G.S.A. Panel 71  
March 12, 2022  
Area Quarterly Meeting, 2Q22**

**Officer-At-Large Report:** Plans for the Mini I and Mini II / Delegate's Conference Report have been put in place and it looks like both events will be fun and informative. Flyers are available today and are posted on the area website as well. Please encourage attendance at your district meetings!

Two dry erase whiteboards on stands were recently added to the area equipment inventory, as well as 30 headphones for translation purposes, microphone cables, and batteries. We are pleased to be able to donate some "gently worn" translation equipment to District 68 for use at the annual Hispanic Convention.

**Registrar Report:** A list of 91 unknown groups is included in the OAL/Registrar folder. I am asking for your help in whittling that number down as much as possible. If you have knowledge about any of these listings, please let me know. Remember that all DCMs have view-only access to Fellowship Connection; if you need assistance with this, just ask.

Thank you for sending me to NERAASA; I always find it to be inspiring and especially enjoyed the Sunday morning presentations - in particular, Phyllis H., past trustee and General Service Office manager. She said something that really rang true for me: "we hear people talking in meetings about the 7<sup>th</sup> step and being ready to address their character defects – I tell them, 'Just get involved in general service, that should do it!'" I had the privilege of serving as moderator at the Registrar's Roundtable on Friday and Saturday night. This was a great opportunity to meet face to face with other area registrars for networking and problem solving. I continue to meet with my peers from the U.S. and Canada using Zoom on the first Sunday of each month for the same reason.

Quarterly meetings with GSO staff regarding Fellowship Connection are still being held – a great opportunity for registrars to gain new information from the source as well as pose questions or voice frustrations honestly and openly. The database has improved greatly over the last year and in my opinion, it's due in large part to GSO's willingness to work with us, hear our suggestions, and implement changes when possible to do so.
