**Structure Annual Report
E.P.G.S.A. Area 59 Panel 73
Year 1 - 2023**

The Structure Subcommittee has spent the first year of our time together familiarizing ourselves with the Area 59 Structure manual and performing a comprehensive analysis of current customs and business practices. Through our research, we noted some inconsistencies and things that have simply fallen out of practice through the years.

We presented a blockbuster recommendation at the 4th quarterly business meeting which should be circulating through the districts and groups for feedback. The subcommittee did extensive research on this update by speaking with past delegates, area officers, subcommittee chairs, and DCMs. The recommendation is by no means a change to area structure, but rather an update to accurately reflect our current customs and business practices.

We have been to various workshops and Districts at the request of DCMs to talk about what structure is and what we do, conducted a subcommittee inventory, and provided displays at all area functions.

In addition, the Structure Subcommittee has been working with various districts across Eastern Pennsylvania to develop guidelines or structure manuals for their districts if one is not currently in place. We hope to be a resource for all districts and groups in the Area and look forward to another year of service!

With Gratitude,

The Structure Subcommittee
