**Treatment and Accessibilities Report**  
**E.P.G.S.A. Area 59 Panel 73**  
**June 9th, 2024**  
**Area Quarterly Meeting, Q3 Williamsport, PA**

This committee met three times on Zoom this quarter and is scheduled to meet again today.

Recent meeting minutes have been approved and sent to committee advisor, Delegate and Area Archivist.

The committee has continued to support Bridging the Gap and has supplied literature, when possible, to treatment facilities. Recently discussed motion to have Area approve BTG literature. This committee is continuing to work with intergroups and facilities to expand BTG.

Committee chair has attended All Area Access zoom for the last 3 months and shared information with subcommittee. One meeting included GSO Accessibilities chair.

The committee has received necessary literature and display materials, continuing to stay under our \$1900 budget which may need to be increased as we are creating and ordering new display shades. This process for new shades has been delayed and committee members are actively working to rectify this with help from committee Advisor.

The committee is continuing to make connections with Spanish and ASL translators.

Accessibilities support continues to be available for events within Area 59.

The committee has been gathering specific meeting information for certain demographics like “veterans” and “babysitting” to encourage GSO and intergroups to add these categories to their meeting guides.

This committee is creating a webpage with Digital Communications for the Area website.

Several committee members have attended various workshops and conferences with our display, listed below as a travel log:
