E.P.G.S.A. Area 59 Panel 75

March 8th, 2026

Area Quarterly Meeting Q2- Milford, PA

New Combined CPC-PI Banner

Over the last few months, the CPC-PI subcommittee has finished the necessary steps to have a new banner produced that explains the functions of both CPC and PI work. Up to this point, the committee was using the old banners, which meant extra coordination when attending an event, as there weren't enough of both previous banners to go around to all 6 committee members. Every committee member now has available to them one banner that covers both CPC and PI.

Assisting Districts and Intergroups:

In December we launched a survey for districts to assess their CPC and PI needs and offer our support. We got a large response which told us that some districts are working with their intergroups around CPC and/or PI, some have committees within their districts, and some are looking for help. We've split up the list of those that are seeking support among the committee members and are meeting with those districts over the next few months.

The Lancaster County Intergroup was looking to fill their CPC chair position. One of the CPCPI committee members worked with the Lancaster Intergroup to help put the word out of the need, the Intergroup has since filled the position.

GSO Referrals

We continue to receive and respond to GSO referrals, in most cases this involves coordination with one of the Intergroups in the Area or a District by Committee.

Professionals in AA

We are going to focus some outreach to AA members that are professionals who are willing to speak with their fellow professionals, who have the same or similar positions as they do, about what AA is and what it isn't.
